Centre for Engineering
Leadership and Management

The Victorian Chapter of the
Centre for Engineering Leadership
& Management (CELM)

In conjunction with

Young Engineers Australia – Victoria Division (YEAV)
Presents...

Leadership and Career Path Options for Engineers

Join a panel discussion with a range of speakers with a mix of ages, gender, background and experiences to share in conversations with the audience in a lively panel discussion

Dr. Rebecca Gravina, Senior Lecturer in Civil Engineering in the School of Civil, Environmental and Chemical Engineering at RMIT University. She is Deputy Chair, Engineer Australia's National Committee for Women in Engineering.

Ms. Martina Zeitler originally studied as a Mechanical Engineer. She works at the ExxonMobil Altona Refinery as the LRP Projects Manager. Martina seeks to find a career/life balance with a busy family life and two young children.

Mr. Paul Douglas originally studied as a chemical engineer. He is the Chief Executive of Sinclair Knight Merz. He is a past Chair of the Board of CELM.

Mr. Peter Scott originally studied as a Civil Engineer. He is now a Partner with Korn/Ferry International and a Non-Executive Director of SKM, Stockland and Perpetual Trustees. He is a current Board member of CELM.

When: Thursday 28th September 2006

5:45pm for 6.15pm - 7:30pm

Tea and coffee will be provided from 5:45pm

Light refreshments will be available at the conclusion of the panel discussion at 7:30 until 8:00, to enable further networking and discussion.

Where: Auditorium, EA House, 21 Bedford Street, North Melbourne

Cost: No charge

Please **RSVP** by **Friday 22nd September** to viccelm@engineersaustralia.org.au

Continuing Professional Development (CPD) time weighting factor: 1

What is CELM...?

The purpose of CELM is to "To develop and promote BUSINESS LEADERSHIP AND MANAGEMENT for engineers in commercial and public enterprises". The Centre formed out of the recognition that the current colleges do not support engineers in management and leadership roles. CELM's aim is to recognise, promote, train, support, encourage, and accredit the role of engineers in business leadership and management.
